Dear HR Manager,

Warm Greetings !!!

I am Nishanth, a recent graduate from the Technische Universität München. This letter is to express my interest in your job opening for an Software Developer (Autonomous Driving). With a Bachelor's degree in Computer Science and Engineering, Master's degree in Informatics, and an experience of a little over 3 yrs in industry as a C / C++ software developer, I am confident that I will be an asset to your organization.

I enjoy taking on responsibilities to work on challenging projects that require me to work outside my comfort and knowledge set. I am a highly self-motivated individual with an interest for developing innovative software products and thereby contribute to the success of your organization.

Your listed requirements closely match my skills in programming and I believe that these would be an ideal fit for your job opening in software development. A few I would like to highlight are:

Skilled in designing, developing, and testing software using C / C++ on Linux platforms.
Experience working on large scale projects
Hands-on software troubleshooting experience

I also believe that my candidature is suitable for other existing openings in the company as mentioned below:

1. Software Engineer for Model Based Development.
2. Automotive Software Ingenieur (m/w) für AUTOSAR Projekte (München)
3. Softwareentwickler (m/w) Embedded OS

Please find attached a copy of my resume with the details of my projects and experiences in software development.

Thank you for your time and consideration. I look forward to speaking with you about this opportunity.

Best Regards,
Nishanth Nagendra
